

Application for Accelerated Biology Placement at LHS

This form is due April 1, 2022

Student Name _____ Middle School _____

8th Grade Science Teacher _____

Students meeting the following requirements may bypass the freshman physical science and take Accelerated Biology as a replacement their freshman year. Students choosing this route **must take either Chemistry or Physics** their sophomore year to meet the 1 credit of physical science graduation requirement.

Accelerated Biology is a class for students interested in science and/or on a college track. Taking Accelerated Biology as a freshman will open up a wider variety of science classes to take in grades 10-12. It will also allow the student more options in taking advanced or AP science classes at LHS.

Requirements checklist:

1. Receive an A or B in 8th grade math.
Math class: _____ Grade: _____ Teacher signature _____
2. Receive an A or B in current science class. Grade _____ Teacher signature _____
3. Recommendation form below to be filled out by current science teacher: must have all ratings of a 3 or better.

Recommendation form

Overall rating	1	2	3	4	5

MLSCA Score: _____

Student Strengths:

Areas to develop:

8th grade science teacher – once the above part of the form is complete, please send a copy of this application home with your student to get a parent signature. The student returns the form with the parent signature back to you. Then all forms are sent to Rhonda Restau, LHS register in courier. These recommendations will determine how many sections of Accelerated Biology we will offer at LHS next year. Thank you for your help.

Parents, please check one box below then sign and date

Yes, please register my child for 9th grade Accelerated Biology.

Parent Signature: _____ Date: _____

No, please register my child for 9th grade Physical Science
